HOKAGGY AND THE COCKROACHES

Synopsis :

In the hidden village of Konoha, peace reigns... or so it seems. Oggy Uzumaki—better known as Hokaggy, a lazy, ramen-loving ninja cat—is finally living his dream as the 7th Hokage but went through difficult trials to succeed in becoming one. But his days of relaxation are constantly interrupted by a trio of mischievous cockroach-ninjas called "The Akatsuki": Joey, Dee Dee, and Marky, who have somehow mastered forbidden jutsu and are determined to turn the Hokage's mansion into their chaotic playground.

Will Hokaggy prove that even the most laid-back ninja has what it takes to be a true hero? Or will the cockroaches succeed in destroying the village of Konoha?

POKÉMON: CRIMSON CHAINS

Synopsis :

In a twisted world where the bond between trainer and Pokémon is put to the ultimate test, a deranged former Professor traps elite trainers in a deadly underground game. To escape, they must solve brutal puzzles – where failure means pain not for them, but for their beloved Pokémon. As time runs out, trust shatters and loyalty is pushed to the edge in this dark fusion of Pokémon and Saw.

SPONGEBOB:RAMBOPANTS

Synopsis :

In a reality where Bikini Bottom is just a simulation and the Krusty Krab is ground zero for a digital rebellion, one sponge is about to break free... violently.

When SpongeBob SquarePants learns that his jellyfishing routine is part of a coded illusion called The Matrix, he is unplugged and thrust into a war against the evil algorithms controlling the underwater world. Reborn as Rambo Pants, a bandana-clad, muscle-bound commando with a thirst for freedom (and Krabby Patties), SpongeBob becomes the unlikely leader of a ragtag resistance.

At his side:

- Patrick Star, mysteriously awakened as The One, a trench-coat-wearing, slow-mo dodging hero who knows kung fu—sometimes.
 - Sandy Cheeks, reprogrammed as The Bride, a katana-wielding tech-samurai with a Texas drawl and a vengeance streak longer than Neptune's beard.
- Together, they must hack, slash, and fry their way through the simulated streets of Glitchy Bottom, battle an army of Agent Jellys, and uncover a shocking secret: Mr. Krabs might be the Architect of it all. Explosions, noodles of code, nunchucks, and one very confused Squidward.
- Are you ready to be un-shelled?

GREMLINO

Synopsis :

In an alternate 1940s Italy, the Gremlini—clever, well-dressed furry creatures—secretly control the country through the powerful criminal syndicate “Cosa Pelozza.” The story centers on Mozzino, the pastry-loving son of mafia boss Don Furfuri, who is torn between baking and his family's criminal empire. When humans begin trafficking Gremlini as exotic pets, chaos erupts, triggering a surreal mafia war full of booby-trapped cannoli and absurd betrayals. Mozzino must choose: unite the clans or vanish, stripped of fur and honor.

Synopsis :

In the small, isolated town of Frosty Creek, Erik Corman, a marginalized boy, struggles to survive in a world that rejects him. Mocked at school, ignored by adults, and raised by television, he finds refuge in imitating stand-up clowns. After one humiliation too many, he creates his alter ego “Joko” and launches a strange crusade against adult hypocrisy and absurd social norms. His pranks evolve into acts of subversive chaos, blurring the line between humor and threat. But how far can you go to make people laugh when no one is laughing anymore?
